Ashley Addiction Treatment's Parent & Family Connection

DATE:  1st & 3rd Thursday of Every Month

PLACE: Burlington County Agricultural Center
       500 Centerton Rd., Moorestown, NJ 08057

TIME:  6:30 pm - 8:00 pm

TOPIC: Monthly meetings for parents and family members who have loved ones struggling with addiction or in recovery.

The individual battling addiction isn’t the only one in need of healing. Parent & Family Connection is a safe, professionally-facilitated, member-run resource for family members and parents / guardians that have a child or loved one in recovery or actively using. It’s a place to share support, wisdom, and perspective to help cope with the collateral effects of addiction.

The meetings will help you navigate topics such as:

- Supporting loved-ones and children without enabling them
- Recovery support outside of the Ashley Parent & Family Connection group (i.e. Al-Anon, Family Anonymous, Nar-Anon, etc.)
- Focusing on your own personal recovery
- Suspicion that your loved one is using again
- Your loved one stops going to recovery-based activities such as recovery support meetings
- Crisis (relapse, incarceration, suicidal ideation, etc.)

FACILITATOR
RICH SOCKRITER, MS, LPC, LCADC

Rich is a Licensed Professional Counselor and Licensed Clinical Alcohol and Drug Counselor who has over 25 years of experience serving individuals who suffer with mental illnesses and the disease of addiction. He has a broad scope of experience ranging from inpatient treatment to community health as well as outpatient treatment centers. He has held clinical, as well as, executive positions within these practice settings. He is a graduate of Loyola University in Maryland and holds a Master’s of Science in Counseling Psychology with a concentration in substance abuse.

He currently has his own practice with offices in Camden and Gloucester County, New Jersey. In his practice he works with the addicted individual, as well as their family, providing hope when there seems to be no hope. Other specialty areas are: anxiety, depression, mood disorders, addiction free pain management, group work and equine assisted psychotherapy.
